

RDG Airport Winter Operations Meeting

This safety event will begin with a presentation by the Reading Regional Airport Authority's Terry Sroka on the new TALPA (Takeoff and Landing Performance Assessment) initiative, and the resulting FICON (Field Condition Reporting) process. Pilots will definitely benefit, learning about the new changes to the reporting of braking actions, especially with winter weather's ice and snow quickly approaching.

After the TALPA/FICON presentation, FAASafety Team Representative Paul Jones will present a safety seminar on Winter Weather Flying Operations, with the goal of minimization of risk factors, and maximization of fun! Food and Refreshments will be served!! Please register on-line today!!!!

Directions: Go to the Passenger Boarding Lounge in the Terminal Building.
